

I have read the **National Hispanic Medical Association Chapter Leadership** document and will, to the best of my ability, meet all of the requirements outlined in the Chapter Charter.

As a Chapter leader, I will highlight my affiliation with NHMA in public-facing activities and serve as a local representative of NHMA with respect and pride. I will encourage the active participation of chapter members in connecting with the community to grow the chapter's membership. I understand that NHMA will be providing financial, and staff support to the Chapter to provide value to current and new NHMA members, create opportunities to enhance the professional careers of NHMA members, and impact the Hispanic/Latino community in my area.

- I will work with the NHMA staff to meet the requirements outlined in the charter.
- I will work with the NHMA staff and National Chairs to address any issues that may arise in meeting the requirements of this Charter.
- I will encourage chapter members to support NHMA efforts nationally and locally, including attending the annual national conference.
