

**Carlos F. Muñoz, MD, MSc**

Dr. Muñoz is a neurologist specialized in epilepsy. He obtained his medical degree from Universidad Iberoamericana in the Dominican Republic and a Master of Science degree in Clinical Trials from the University of London. He completed a neurology residency at Allegheny General Hospital and an epilepsy fellowship at Massachusetts General Hospital. Dr. Muñoz is the founder of the Dominican Epilepsy Foundation, a patient advocacy group. He is the recipient of an award from the American Academy of Neurology's Neuro Film Festival and holds a US patent for the development of a wearable electroencephalography device. His professional interests and publications focus on the development of seizure prediction models and quantitative EEG.

He will be officially joining SUNY Upstate as Assistant Professor in April, 2021
