About NHMA

Established in 1994 in DC, the National Hispanic Medical Association (NHMA) is a 501(c)(6) non-partisan, non-profit membership association representing the interests of 50,000 licensed Hispanic physicians in the United States.

The vision of the organization is to be the national leader in improving the health of Hispanic populations.

The mission of the organization is to empower Hispanic physicians to lead efforts to improve the health of Hispanic and other underserved populations in collaboration with Hispanic state medical societies, residents, medical students, and other public and private sector partners.

National Latino Physician Day Mission Statement

To address the Latino physician shortage crisis, the mission of National Latino Physician Day is to improve the quality of care for the United States Latino patient population by increasing the number of Latino physicians who provide culturally and linguistically concordant care.
