TUESDAY, JUNE 20TH, 2023
7:00 - 8:00PM ET

ELENA RIOS, MD, MSPH, MACP
President and CEO of the National Hispanic Medical Association

MELINDA WHARTON, MD, MPH
Associate Director for Vaccine Policy, National Center for Immunization and Respiratory Diseases, Centers for Disease Control and Prevention

VACCINATE FOR ALL
VACUNAS PARA TODOS

National Hispanic Medical Association
VACCINATE FOR ALL UPDATES

Exciting News: Our webinar series is getting a rebrand!
"Vaccinate for All Virtual Briefing Series"

Building upon the success of the NHMA COVID-19 Virtual Briefing Series since May 2020, this refreshed series will provide essential insights and updates on all vaccination efforts, ensuring comprehensive information for all. Stay tuned for upcoming sessions of the Vaccinate for All Virtual Briefing Series!

Introducing the V4All Champions Monthly Newsletter!

We're thrilled to announce the launch of our monthly newsletter exclusively for our V4All champions! This newsletter is designed to keep you informed, engaged, and inspired as part of our vibrant community. Don't miss out on all the fantastic opportunities and resources we have in store for you. Sign up now to become a champion!

HHS Bridge Access Program For COVID-19 Vaccines and Treatments

This initiative serves as a temporary bridge to the proposed permanent and comprehensive Vaccines for Adults Program outlined in the FY23 and FY24 President's Budgets. The Bridge Program will be in effect from Fall 2023 through December 2024, providing a vital interim solution to ensure access to COVID-19 vaccines and treatments for uninsured individuals during this period.
Dr. Romero’s presentation offered insights on the impact of the pandemic on the Hispanic or Latino population, the need for health equity, and strategies to strengthen public health impact in COVID-19 response and other related areas.

Organizations Who Attended
Hispanic Health Coalition, Chicago Hispanic Health Coalition, Hispanic Dental Association, Hispanic Neuropsychological Society, American Public Health Association, Medical Organization for Latino Advancement, National Association of Hispanic Nurses, Latino Commission on AIDS, Arizona Latin American Medical Association, and many more!

The Advisory Committee on Immunization Practices: Opportunities for Engagement

National Hispanic Medical Association Partner Call

Melinda Wharton, MD, MPH
Executive Secretary, ACIP
Associate Director for Vaccine Policy
20 June 2023
What is the Advisory Committee on Immunization Practices?

- The ACIP is a Federal advisory committee that provides advice and guidance to the Director of the Centers for Disease Control and Prevention on most effective means to prevent vaccine-preventable diseases in the civilian population of the United States
  - Vaccines and related agents (e.g., antisera, immune globulins, antiviral agents)
  - FDA-licensed vaccines (and unlicensed vaccines if warranted)
- For each product, the committee advises on population groups and/or circumstances in which a vaccine or related agent is recommended
- Committee deliberations on use of vaccines to control disease in the U.S. shall include consideration of disease epidemiology and burden of disease, vaccine efficacy and effectiveness, vaccine safety, the quality of evidence reviewed, economic analyses and implementation issues

https://www.cdc.gov/vaccines/acip/committee/charter.html
Vaccines for Children Program

- Vaccines for Children (VFC) Program – established in 1993
  - Unique statutory authority gives ACIP authority to determine vaccines included in the VFC Program

- VFC is a federal entitlement program, eligible children (0 through 18 years of age):
  - Medicaid eligible; uninsured; American Indian/Alaska native: underinsured

- Currently, approximately 48% of young children in the US are entitled to VFC

- During ACIP meetings members vote first on vaccine recommendation; then take a separate vote on whether to include the vaccine in VFC

- Not affected by Affordable Care Act
Affordable Care Act

- ACIP recommendations become policy following approval by CDC Director and MMWR publication

- The Affordable Care Act (ACA) was enacted in 2010 and requires private insurance coverage for immunizations included in the approved immunization schedules without copays/deductibles when provided by an in-network provider

- Health plans have one plan year from MMWR publication to implement recommendations according to CDC Immunization schedules (graphics and footnotes)
How Can Individuals Be Involved in ACIP?

- Read ACIP’s recommendations
- Distribute ACIP recommendations within your practice, health system, or organization
Interim Recommendation of the Advisory Committee on Immunization Practices for Use of the Novavax COVID-19 Vaccine in Persons Aged ≥18 years — United States, July 2022

Use of JYNNEOS (Smallpox and Monkeypox Vaccine, Live, Nonreplicating) for Preexposure Vaccination of Persons at Risk for Occupational Exposure to Orthopoxviruses: Recommendations of the Advisory Committee on Immunization Practices — United States, 2022

Use of Combination Measles, Mumps, Rubella, and Varicella Vaccine

</table>

- 1 dose
- 1 dose
- 2 doses depending on indication
- Recommended vaccination for adults who meet age requirements, lack documentation of vaccination, or lack evidence of past infection
- Recommended vaccination for adults with an additional risk factor or another indication
- Recommended vaccination based on shared clinical decision making
- No recommendation/not applicable

https://www.cdc.gov/vaccines/schedules/
How Can Individuals Be Involved in ACIP?

- Read ACIP’s recommendations
- Distribute ACIP recommendations within your practice, health system, or organization
- Watch ACIP meetings online (either live or after they are posted)
- Sign up to make an oral public comment or make written public comment on behalf of yourself or your organization
ACIP Meetings

- Three 2-day meetings annually – February, June, and October
- Recent meetings have been 3 days
- Additional meetings have been frequent during the COVID-19 pandemic

- All meeting materials (i.e., agendas, slides, live webcast archive, minutes) posted on ACIP website after each meeting

- Meetings must be open to the public with time for public comment
  - Oral public comment time is provided prior to scheduled votes
  - Increased public interest in providing oral public comment over last several years

- Members of the public can submit written public comment via regulations.gov
How Can Individuals Be Involved in ACIP?

- Read ACIP’s recommendations
- Distribute ACIP recommendations within your practice, health system, or organization
- Watch ACIP meetings online (either live or after they are posted)
- Sign up to make an oral public comment or make written public comment on behalf of yourself or your organization
- Share your perspectives on issues under consideration through a liaison organization
- Represent a liaison organization on an ACIP work group
Liaison Organizations

- Thirty organizations with broad involvement in immunization
- Designated representative brings perspective of the organization
  - Keeps organization & membership apprised of ACIP deliberations and recommendations
- Members serve on work groups
- Members attend and participate in every ACIP meeting
- Certain organizations assist with development and publication of immunization schedules “harmonized” with ACIP
ACIP Work Groups – June 2023

Permanent Work Groups:
1. Adult & Child/Adolescent Immunization Schedules
2. Influenza Vaccines

Task-oriented Work Groups:
3. Chikungunya Vaccine
4. COVID-19 Vaccines
5. Dengue Vaccine
6. Meningococcal Vaccines
7. Mpox Vaccine
8. Pneumococcal Vaccines
9. Polio Vaccines
10. RSV – Maternal/Pediatric
11. RSV -- Adult
How Can Individuals Be Involved in ACIP?

- Read ACIP’s recommendations
- Distribute ACIP recommendations within your practice, health system, or organization
- Watch ACIP meetings online (either live or after they are posted)
- Sign up to make an oral public comment or make written public comment on behalf of yourself or your organization
- Share your perspectives on issues under consideration through a liaison organization
- Represent a liaison organization on an ACIP work group
- Apply for membership on the ACIP
Applications for ACIP membership are due no later than August 1, 2023 for the 4-year term beginning July 2024.
ACIP Voting Members

- Up to 20 voting members
  - Includes one consumer representative, and up to 19 members with expertise in specific disciplines
- 4-year, overlapping terms
- Members screened for conflicts of interest upon appointment, annually through term, and at every ACIP meeting
- ACIP is independent of CDC; voting ACIP members are not CDC employees
Expertise & Perspective of ACIP Members

- Medicine (Pediatrics, Internal Medicine, Family Medicine, Infectious Diseases, Ob/Gyn, others)
- State/local health departments
- Public health, preventive medicine
- Nursing
- Immunology
- Vaccine research and policy
- Economics and cost-effectiveness
- Consumer concerns
How Can Individuals Be Involved in ACIP?

- Read ACIP’s recommendations
- Distribute ACIP recommendations within your practice, health system, or organization
- Watch ACIP meetings online (either live or after they are posted)
- Sign up to make an oral public comment or make written public comment on behalf of yourself or your organization
- Share your perspectives on issues under consideration through a liaison organization
- Represent a liaison organization on an ACIP work group
- Apply for membership on the ACIP
- Start with the June 21-23 ACIP meeting
ACIP’s June 21-23 Meeting

- Agenda and link for viewing on the ACIP’s web page: [www.cdc.gov/vaccines/acip](http://www.cdc.gov/vaccines/acip)
- Topics:
  - Respiratory syncytial virus vaccines for older adults
  - Polio vaccine
  - Influenza vaccines for the 2023-2024 season
  - Dengue vaccine
  - Chikungunya vaccine
  - Prevention of respiratory syncytial virus in infants
  - Mpox vaccine
  - Meningococcal ABCWY vaccine
  - Vaccine safety
  - COVID-19 vaccines
